WELCOME TO ISS CBR MAGAZINE + YOUR FESTIVAL PROGRAMME

Welcome to Craft Beer Rising London 2015. As we take over the Old Truman Brewery once again for our third year, we have grown to deliver what we believe is a bigger and better show than ever. We now have a festival app (head to craftbeerising.co.uk to download) that'll give you the low-down on all your favourite brewers and allow you to vote for your top beers of the event. Festival highlights include several brewery launches, new drinks releases, and the UK debut of the five-strong New Zealand Craft Beer Collective of Yeastie Boys, Renaissance, B Wired, Tuatara and Three Boys. There will also be some fantastic talks in our Mash Tun area hosted by Melissa Cole, including chats with Celt Experience's Tom Newman on mead, a lager exclusive with master Austrian brewer Karl Trojan, plus Melissa's own food and beer matching. Then there's the music and food... Soul II Soul legend Jazze B takes our headline spot supported throughout the weekend by Don Letts, The Doctor's Orders, Channel One and Andy Smith amidst a plethora of other musical talent. Food-wise there are lip-smackingly good offerings from the likes of Prairie Fire BBQ and Dosa Deli. Last, but certainly not least, we're giving you this magazine (incorporating the event programme) so you can enjoy some great articles and re-live the fun of Craft Beer Rising when you get home! Thank you for coming and... cheers! Enjoy!
